10. UNITED STATES TAX CONSIDERATIONS

Section 871(m) Withholding Tax

The U.S. Treasury Department has issued regulations under which amounts paid or deemed paid on certain financial instruments that are treated as attributable to U.S.-source dividends could be treated, in whole or in part depending on the circumstances, as a "dividend equivalent" payment that is subject to tax at a rate of 30 per cent. (or a lower rate under an applicable treaty). We have determined that, as of the issue date of the Certificates, the Certificates will not be subject to withholding under these rules. In certain limited circumstances, however, it is possible for United States alien holders to be liable for tax under these rules with respect to a combination of transactions treated as having been entered into in connection with each other even when no withholding is required. United States alien holders should consult their tax advisor concerning these regulations, subsequent official guidance and regarding any other possible alternative characterisations of their Certificates for United States federal income tax purposes. See "*United States Tax Considerations – Dividend Equivalent Payments*" in the Base

Prospectus for a more comprehensive discussion of the application of Section 871(m) to the Certificates.

EXAMPLES

THE EXAMPLES PRESENTED BELOW ARE FOR ILLUSTRATIVE PURPOSES ONLY.

For the purposes of each Example:

- (i) the Issue Price is EUR 100 per Certificate and the Calculation Amount is EUR 100;
- (ii) the Autocall Level is 100 per cent. (100%) of the Asset Initial Price, and the Barrier Level is 80 per cent. (80%) of the Asset Initial Price; and
- (iii) the Autocall Event Amount for the first Valuation Date is EUR 106.00, the Autocall Event Amount for the third Valuation Date is EUR 118.00, the Trigger Percentage is 130.00 per cent. (130.00%) and the Redemption Percentage is 100 per cent. (100%).

AUTOMATIC EARLY EXERCISE

Example 1 – Automatic Early Exercise: *The Reference Price of the Underlying Asset for the first Valuation Date is greater than or equal to the Autocall Level.*

In this Example, the Certificates will be automatically exercised on such Valuation Date, and the Automatic Early Exercise Amount payable per Certificate (of the Calculation Amount) on the Automatic Early Exercise Date immediately following such Valuation Date will be an amount in the Settlement Currency equal to the Autocall Event Amount for such Valuation Date, i.e., EUR 106.00.

Example 2 – no Automatic Early Exercise: *The Reference Price of the Underlying Asset for the first Valuation Date is less than the Autocall Level.*

In this Example, the Certificates will not be automatically exercised on such Valuation Date.

Example 3 – Automatic Early Exercise: *The Reference Price of the Underlying Asset for the third Valuation Date is greater than or equal to the Autocall Level.*

In this Example, the Certificates will be automatically exercised on such Valuation Date, and the Automatic Early Exercise Amount payable per Certificate (of the Calculation Amount) on the Automatic Early Exercise Date immediately following such Valuation Date will be an amount in the Settlement Currency equal to the Autocall Event Amount for such Valuation Date, i.e., EUR 118.

Example 4 – no Automatic Early Exercise: *The Reference Price of the Underlying Asset for the third Valuation Date is less than the Autocall Level.*

In this Example, the Certificates will not be automatically exercised on such Valuation Date.

SETTLEMENT AMOUNT

Example 5 – Positive Scenario:

The Certificates have not been exercised on an Applicable Date and the Final Closing Price in respect of the Underlying Asset is greater than or equal to 100 per cent. (100%) of the Asset Initial Price.

The Settlement Amount payable per Certificate (of the Calculation Amount) on the Maturity Date will be an amount in the Settlement Currency equal to the *product* of (i) the Calculation Amount, *multiplied* by (ii) the Trigger Percentage, i.e., EUR 130.

Example 6 – Neutral Scenario:

The Certificates have not been exercised on an Automatic Early Redemption Date and the Final Closing Price in respect of the Underlying Asset is 80 per cent. (80%) or more of the Asset Initial Price but less than 100 per cent. (100%) of the Asset Initial Price.

The Settlement Amount payable per Certificate (of the Nominal Amount) on the Maturity Date will be an amount in the Settlement Currency equal to the Calculation Amount, i.e., EUR 100.

Example 7 – Negative Scenario:

The Certificates have not been exercised on an Automatic Early Redemption Date and the Final Closing Price in respect of the Underlying Asset is 79 per cent. (79%) of the Asset Initial Price.

The Settlement Amount payable per Certificate (of the Nominal Amount) on the Maturity Date will be 69 per cent. (69%) of the Calculation Amount, i.e., EUR 79. **In this Example, an investor who purchased the Certificates at the Issue Price will sustain a substantial loss of the amount originally invested in the Certificates.**

Example 8 – Negative Scenario:

The Certificates have not been exercised on an Automatic Early Redemption Date and the Final Closing Price in respect of the Underlying Asset is zero per cent. (0%) of the Asset Initial Price.

The Settlement Amount payable per Certificate (of the Nominal Amount) on the Maturity Date will be zero per cent. (0%) of the Calculation Amount, i.e., zero. **In this Example, an investor will sustain a total loss of the amount originally invested in the Certificates.**

What are the key risks that are specific to the Issuer?

The Issuer is subject to the following key risks:

- The payment of any amount due on the Securities is subject to the credit risk of the Issuer. The Securities are the Issuer's unsecured obligations. Investors are dependent on the Issuer's ability to pay all amounts due on the Securities, and therefore investors are subject to the Issuer's credit risk and to changes in the market's view of the Issuer's creditworthiness. The Securities are not bank deposits, and they are not insured or guaranteed by any compensation or deposit protection scheme. The value of and return on the Securities will be subject to the Issuer's credit risk and to changes in the market's view of the Issuer's creditworthiness.
- GSG and its consolidated subsidiaries ("**Goldman Sachs**") is a leading global investment banking, securities and investment management group and faces a variety of significant risks which may affect the Issuer's ability to fulfil its obligations under the Securities, including market risks, liquidity risks, credit risks, operational risks, legal and regulatory risks, competition risks and market developments and general business environment risks.
- GSI is a wholly-owned subsidiary of the Goldman Sachs group and a key banking subsidiary of the Goldman Sachs group. As a result, it is subject to a variety of risks that are substantial and inherent in its businesses including risks relating to economic and market conditions, regulation, Brexit, market volatility, liquidity, credit markets, concentration of risk, credit quality, composition of client base, derivative transactions, operational infrastructure, cyber security, risk management, business initiatives, operating in multiple jurisdictions, conflicts of interest, competition, changes in underliers, personnel, negative publicity, legal liability, catastrophic events and climate

change.

- GSI is subject to the Bank Recovery and Resolution Directive, which is intended to enable a range of actions to be taken by a resolution authority in relation to credit institutions and investment firms considered by the resolution authority to be at risk of failing and where such action is necessary in the public interest. The resolution powers available to the resolution authority include powers to (i) write down the amount owing, including to zero, or convert the Securities into other securities, including ordinary shares of the relevant institution (or a subsidiary) – the so-called "bail-in" tool; (ii) transfer all or part of the business of the relevant institution to a "bridge bank"; (iii) transfer impaired or problem assets to an asset management vehicle; and (iv) sell the relevant institution to a commercial purchaser. In addition, the resolution authority is empowered to modify contractual arrangements, suspend enforcement or termination rights that might otherwise be triggered. The resolution regime is designed to be triggered prior to insolvency, and holders of Securities may not be able to anticipate the exercise of any resolution power by the resolution authority. Further, holders of Securities would have very limited rights to challenge the exercise of powers by the resolution authority, even where such powers have resulted in the write down of the Securities or conversion of the Securities to equity.

Governing law: The Securities are governed by English law.

Status of the Securities:

The Securities are unsubordinated and unsecured obligations of the Issuer and will rank equally among themselves and with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding.

The taking of any action by a resolution authority under the Bank Recovery and Resolution Directive, in relation to the Issuer could materially affect the value of, or any repayments linked to, the Securities, and/or risk a conversion into equity of the Securities.

Description of restrictions on free transferability of the Securities:

The Securities have not been and will not be registered under the U.S. Securities Act of 1933 (the "**Securities Act**") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws.

No offers, sales or deliveries of the Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances that will result in compliance with any applicable laws and regulations.

Subject to the above, the Securities will be freely transferable.

Where will the Securities be traded?

Application will be made by the Issuer (or on its behalf) for the Securities to be listed and admitted to trading on the EuroTLX market, a multilateral trading facility organised and managed by Borsa Italiana S.p.A. (the "**EuroTLX Market**") with effect from at the earliest the Issue Date.

What are the key risks that are specific to the Securities?

Risk factors associated with the Securities: The Securities are subject to the following key risks:

The value and quoted price of your Securities (if any) at any time will reflect many factors and cannot be predicted.

- Depending on the performance of the Underlying Assets, you may lose some or all of your investment.
- The market price of your Securities prior to maturity may be significantly lower than the purchase price you pay for them. Consequently, if you sell your Securities before the stated scheduled redemption date, you may receive far less than your original invested amount.
- Your Securities may be redeemed in certain extraordinary circumstances set out in the conditions of the Securities prior to scheduled maturity and, in such case, the early redemption amount paid to you may be less than the amount you paid for the Securities and might be zero.

Risks relating to certain features of the Securities:

- As the terms and conditions of your Securities provide that the Securities are subject to a cap, your ability to participate in any change in the value of the Underlying Asset over the term of the Securities will be limited, no matter how much the level, price, rate or other applicable value of the Underlying Asset may rise beyond the cap level over the life of the Securities. Accordingly, the return on your Securities may be significantly less than if you had purchased the Underlying Asset directly.

Risks relating to the Underlying Asset:

- **The value of and return on your Securities depends on the performance of the Underlying Asset:** The return on your Securities depends on the performance of the Underlying Asset. The level, price, rate, net asset value or other applicable value of the Underlying Asset may be subject to unpredictable change over time. This degree of change is known as "volatility". The volatility of an Underlying Asset may be affected by national and international financial, political, military or economic events, including governmental actions, or by the activities of participants in the relevant markets. Any of these events or activities could adversely affect the value of and return on the Securities. Volatility does not imply direction of the level, price, rate, net asset value or other applicable value, though an Underlying Asset that is more volatile is likely to increase or decrease in value more often and/or to a greater extent than one that is less volatile.
- **Past performance of an Underlying Asset is not indicative of future performance:** You should not regard any information about the past performance of the Underlying Asset as indicative of the range of, or trends in, fluctuations in the Underlying Asset that may occur in the future. The Underlying Asset may perform differently (or the same) as in the past, and this could have material adverse effect on the value of and return on your Securities.
- **Risks relating to Equity Indices:** Equity indices are comprised of a synthetic portfolio of shares, and as such, the performance of the Index is dependent upon the macroeconomic factors relating to the shares that underlie such Index, such as interest and price levels on the capital markets, currency developments, political factors as well as company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy, as well as the index composition, which may change over time.

Quali sono i principali rischi che sono specifici per l'Emittente?

L'Emittente è soggetto ai seguenti rischi principali:

- Il pagamento di qualsiasi importo dovuto sugli Strumenti Finanziari è soggetto al rischio di credito dell'Emittente. Gli Strumenti Finanziari sono obbligazioni non garantite dell'Emittente. Gli investitori dipendono dalla capacità dell'Emittente di versare tutti gli importi dovuti sugli Strumenti Finanziari, e pertanto gli investitori sono soggetti al rischio di credito dell'Emittente e ai cambiamenti nella visione di mercato del merito di credito dell'Emittente. Gli Strumenti Finanziari non sono depositi bancari, e non sono assicurati o garantiti da alcuno schema di protezione di compensazione o deposito. Il valore e il rendimento sugli Strumenti Finanziari saranno soggetti al rischio di credito dell'Emittente e ai cambiamenti nella visione di mercato del merito di credito dell'Emittente.
- GSG e le sue controllate consolidate ("**Goldman Sachs**") costituiscono un gruppo leader mondiale nell'*investment banking*, nei titoli e nella gestione degli investimenti e fanno fronte ad una varietà di rischi significativi che potrebbero pregiudicare la capacità dell'Emittente di adempiere ai propri obblighi relativi agli Strumenti Finanziari, inclusi i rischi di mercato, rischi di liquidità, rischi di credito, rischi operativi, rischi legali e regolamentari, rischi di concorrenza e sviluppi di mercato e rischi generali del contesto aziendale.
- GSI è una società controllata interamente detenuta dal gruppo Goldman Sachs e una società bancaria controllata principale del gruppo Goldman Sachs. Di conseguenza, è soggetta ad una varietà di rischi che sono sostanziali e inerenti alle proprie attività, compresi i rischi legati alle condizioni economiche e di mercato, di regolamentazione, alla *Brexit*, alla volatilità del mercato, liquidità, mercati di credito, concentrazione del rischio, qualità del credito, composizione della base di clientela, operazioni di strumenti derivati, infrastrutture operative, sicurezza informatica, la gestione del rischio, iniziative imprenditoriali, operatività in multiple giurisdizioni, conflitti di interessi, concorrenza, cambiamenti nelle attività sottostanti, personale, pubblicità negative, responsabilità legale, eventi catastrofici e cambiamento climatico.
- GSI è soggetta alla *Bank Recovery and Resolution Directive* (Direttiva sul Risanamento e la Risoluzione delle Crisi Bancarie), che ha lo scopo di consentire una serie di azioni da parte di un'autorità di risoluzione delle crisi in relazione agli enti creditizi e alle imprese di investimento che l'autorità di risoluzione delle crisi considera a rischio di fallimento e quando tale azione è necessaria nell'interesse pubblico. I poteri di risoluzione delle crisi di cui dispone l'autorità di risoluzione delle crisi comprendono il potere di (i) svalutare l'importo dovuto, anche a zero, o convertire gli Strumenti Finanziari in altri titoli, comprese le azioni ordinarie dell'ente interessato (o di una controllata) - il cosiddetto strumento del "bail-in"; (ii) trasferire tutta o parte dell'attività dell'ente interessato a una "banca ponte"; (iii) trasferire attività deteriorate o problematiche a un veicolo di gestione patrimoniale; e (iv) vendere l'ente interessato a un acquirente commerciale. Inoltre, l'autorità di risoluzione delle crisi ha la facoltà di modificare gli accordi contrattuali, sospendere i diritti di esecuzione o di recesso che potrebbero altrimenti essere attivati. Il regime di risoluzione delle crisi è concepito per essere attivato prima dell'insolvenza e i detentori degli Strumenti Finanziari possono non essere in grado di anticipare l'esercizio del potere di risoluzione delle crisi da parte dell'autorità di risoluzione delle crisi. Inoltre, i detentori degli Strumenti Finanziari avrebbero diritti molto limitati di contestare l'esercizio dei poteri da parte dell'autorità di risoluzione delle crisi, anche nel caso in cui tali poteri abbiano portato alla svalutazione degli Strumenti Finanziari o alla conversione degli Strumenti Finanziari in capitale.

In tal caso, l'Importo di Rimborso Anticipato Non Programmato pagabile in relazione a tale rimborso anticipato non programmato sarà, per ciascuno Strumento Finanziario, un importo che rappresenta il valore equo di mercato (*fair market value*) degli Strumenti Finanziari, tenendo conto di tutti i fattori rilevanti al netto dei costi sostenuti dall'Emittente o da qualsiasi sua società controllata, collegata, o sottoposta a comune controllo in relazione a tale rimborso anticipato, compresi quelli relativi alla liquidazione del sottostante e/o degli accordi di copertura correlati. **L'Importo di Rimborso Anticipato Non Programmato può essere inferiore al vostro investimento iniziale e pertanto potreste perdere parte del o tutto il vostro investimento per un rimborso anticipato non programmato.**

L'adozione di qualsiasi azione da parte di un'autorità di risoluzione delle crisi ai sensi della Direttiva sul Risanamento e la Risoluzione delle Crisi Bancarie, in relazione all'Emittente, potrebbe materialmente influenzare il valore dei, o qualsiasi rimborso collegato agli, Strumenti Finanziari, e/o rischiare una conversione in capitale degli Strumenti Finanziari.

Descrizione delle restrizioni alla libera trasferibilità degli Strumenti Finanziari: Gli Strumenti Finanziari non sono stati e non saranno registrati ai sensi dello U.S. Securities Act del 1933 (il "**Securities Act**") e non possono essere offerti o venduti all'interno degli Stati Uniti o a, o per conto o a beneficio di, persone statunitensi, tranne che in alcune operazioni esenti dagli obblighi di registrazione del Securities Act e dalle leggi statali applicabili in materia di strumenti finanziari.

Nessuna offerta, vendita o consegna degli Strumenti Finanziari, o distribuzione di qualsiasi materiale d'offerta relativo agli Strumenti Finanziari, può essere effettuata in o da qualsiasi giurisdizione, salvo in circostanze che risultino conformi alle leggi e ai regolamenti applicabili.

Sarà presentata dall'Emittente (o verrà presentata per suo conto) una richiesta di quotazione e ammissione alle negoziazioni degli Strumenti Finanziari sul mercato EuroTLX, un sistema multilaterale di negoziazione organizzato e gestito da Borsa Italiana S.p.A. (il "**Mercato EuroTLX**") con effetto dalla Data di Emissione.

Quali sono i rischi principali che sono specifici per gli Strumenti Finanziari?

Fattori di rischio associati agli Strumenti Finanziari: Gli Strumenti Finanziari sono soggetti ai seguenti principali rischi:

Il valore ed il prezzo stimato dei Vostri Strumenti Finanziari (se del caso) in qualsiasi momento dipenderanno da molti fattori e non potranno essere prevedibili.

- A seconda dell'andamento delle Attività Sottostanti, Voi potreste subire la perdita di una parte o della totalità del suo investimento.
- Il prezzo di mercato degli Strumenti Finanziari prima della scadenza può essere significativamente inferiore al prezzo di acquisto pagato. Di conseguenza, se vendete i Vostri Strumenti Finanziari prima della data di rimborso prevista, potreste ricevere molto meno dell'importo investito inizialmente.
- I Vostri Strumenti Finanziari possono essere rimborsati in determinate circostanze straordinarie indicate nelle condizioni degli Strumenti Finanziari prima della scadenza prevista e, in tal caso, l'importo di rimborso anticipato pagato al sottoscritto può essere inferiore all'importo pagato per gli Strumenti Finanziari e potrebbe essere pari a zero.

Rischi relativi a determinate caratteristiche degli Strumenti Finanziari:

- Poiché i termini e le condizioni dei Vostri Strumenti Finanziari prevedono che gli Strumenti Finanziari siano soggetti ad un *cap*, la Vostra capacità di partecipare in qualsiasi cambiamento nel valore dell'Attività Sottostante per tutta la durata degli Strumenti Finanziari sarà limitata, a prescindere da quanto il livello, il prezzo, il tasso o altro valore applicabile dell'Attività Sottostante sia superiore al livello del *cap* nel corso della vita degli Strumenti Finanziari. Di conseguenza, il rendimento sui Vostri Strumenti Finanziari potrebbe essere significativamente inferiore a quello che sarebbe stato se aveste acquistato l'Attività Sottostante direttamente.

Rischi relativi all'Attività Sottostante:

- *Il valore ed il rendimento dei Vostri Strumenti Finanziari dipendono dall'andamento dell'Attività Sottostante:* Il rendimento dei Vostri Strumenti Finanziari dipende dall'andamento dell'Attività Sottostante. Il livello, il prezzo, il tasso, il valore patrimoniale netto o altro valore applicabile dell'Attività Sottostante può essere soggetto nel tempo a modifiche imprevedibili. Questo grado di cambiamento è noto come "volatilità". La volatilità di un'Attività Sottostante può essere condizionata da eventi nazionali ed internazionali di natura finanziaria, politica, militare o economica, incluse azioni governative, o da azioni da parte dei partecipanti al mercato rilevante. Uno qualunque di questi eventi o azioni può influenzare negativamente il valore ed il rendimento degli Strumenti Finanziari. La volatilità non implica una direzione del livello, del prezzo, del tasso, del valore patrimoniale netto o altro valore applicabile, anche se un'Attività Sottostante che è più volatile è più probabile che aumenti o diminuisca di valore più spesso e/o in misura maggiore rispetto ad una che è meno volatile.
- *L'andamento passato di un'Attività Sottostante non è indicativo dell'andamento futuro:* Non dovete considerare informazioni relative all'andamento passato dell'Attività Sottostante come indicative del *range*, delle tendenze, o di fluttuazioni dell'Attività Sottostante che possano verificarsi in futuro. L'Attività Sottostante può avere un andamento

diverso (o uguale) rispetto al passato, e ciò può avere un significativo effetto negativo sul valore e sul rendimento dei Vostri Strumenti Finanziari.

- *Rischi relativi a Equity Indices:* Gli indici azionari sono composti da un portafoglio sintetico di azioni, e pertanto, l'andamento dell'Indice dipende da fattori macroeconomici relativi alle azioni sottostanti tale Indice, quali livelli di interesse e prezzo sui mercati dei capitali, sviluppi valutari e fattori politici così come da fattori specifici relativi alle società come utili, posizione di mercato, situazione di rischio, struttura azionaria e politica di distribuzione, così come pure dalla composizione dell'indice, che può variare nel tempo.
