

Final Terms dated 26 September 2016

**ING Bank N.V.**

**Issue of 150,000 Units Express Notes linked to INTC UW due October 2021  
issued pursuant to a  
€40,000,000,000 Global Issuance Programme**

**(Commercial name: Express Certificates linked to INTC UW)**

Any person making or intending to make an offer of the Notes may only do so:

- (i) in the Public Offer Jurisdiction mentioned in Paragraph 8 (*Distribution*) of Part B below, provided such person is of a kind specified in that paragraph and that the offer is made during the Offer Period specified in that paragraph; or
- (ii) otherwise in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or to supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer.

Neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any offer of Notes in any other circumstances.

**Part A – Contractual Terms**

Terms used herein shall be deemed to be defined as such for the purposes of (1) the “General Terms and Conditions” set forth in the Base Prospectus for the issuance of Medium Term Notes and Inflation Linked Notes dated 27 June 2016 of ING Bank N.V., ING Bank N.V., Sydney Branch and ING Americas Issuance B.V., as supplemented from time to time, (the “**Level 1 Programme Prospectus**”), and (2) the “Terms and Conditions of Share Linked Notes” set forth in the Base Prospectus for the issuance of Share Linked Notes of ING Bank N.V. and ING Americas Issuance B.V. dated 27 June 2016, as supplemented from time to time, (the “**Share Linked Note Base Prospectus**” and together with the Level 1 Programme Prospectus, the “**Prospectus**”) which constitutes a base prospectus for the purposes of Directive 2003/71/EC, as amended from time to time (the “**Prospectus Directive**”). This document constitutes the Final Terms applicable to the issue of Notes described herein for the purposes of Article 5.4 of the Prospectus Directive (as implemented by the Dutch Financial Supervision Act (*Wet op het financieel toezicht*) and its implementing regulations) and must be read in conjunction with such Prospectus. Full information on the Issuer and the offer of the Notes is only available on the basis of the combination of these Final Terms and the Prospectus. The Prospectus is available for viewing at <https://www.ingmarkets.com> under the section “Downloads” and copies of the Prospectus may be obtained from ING Bank N.V. at Foppingadreef 7, 1102 BD Amsterdam, The Netherlands.

The Italian Certificates offered hereby have been issued pursuant to the Prospectus provided that (i) all references to “Notes” in the relevant sections of the Prospectus and in these Final Terms shall be deemed to be references to “Italian Certificates” and (ii) all references to “Noteholders” in the relevant sections of the Prospectus and in these Final Terms shall be deemed to be references to holders of the Italian Certificates.

Prospective investors should carefully consider the section “Risk Factors” in this Base Prospectus.

## **PART B – OTHER INFORMATION**

### **1 LISTING**

- (i) Listing: Multilateral Trading Facility (MTF) EuroTLX
- (ii) Admission to trading: Application is expected to be made by the Issuer (or on its behalf) for the Notes to be admitted to trading on the Multilateral Trading Facility (MTF) EuroTLX within the Issue Date.  
The validity of the offer is conditional upon the admission to trading of the Italian Certificate on or before the Issue Date.
- (iii) As-if-and-when-issued-trading: Not Applicable
- (iv) Estimate of total expenses related to admission to trading: A maximum of EUR 400
- (v) Minimum Transferable Amount: 1 Italian Certificate

### **2 RATINGS**

Ratings: The Notes will not be rated

### **3 INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER**

“Save for any fees payable to the Authorised Offerors, so far as the Issuer is aware, no person involved in the issue of the Notes has an interest material to the offer. The Authorised Offerors and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.”

### **4 REASONS FOR THE OFFER, ESTIMATED NET PROCEEDS AND TOTAL EXPENSES**

- (i) Reasons for the offer: See “Use of Proceeds” wording in the Base Prospectus
- (ii) Estimated net Proceeds: USD 15,000,000
- (iii) Estimated total expenses: The terms of the Public Offer do not provide for any expenses and/or taxes to be charged to any subscriber and/or purchaser of the Notes.

### **5 DETAILS OF THE UNDERLYING SHARE**

The return on the Notes is linked to the performance of the underlying Share. The price of the Share may go down as well as up throughout the life of the Notes. Fluctuations in the price of the Share will affect the value of and return on the Notes. A negative performance of the underlying Share will have an adverse effect on the value of and return on the Notes.

Information and details of the past and further performance of the underlying Share and its volatility can be obtained on [www.intel.com](http://www.intel.com) and on [www.bloomberg.com](http://www.bloomberg.com) (Bloomberg code: INTC UW <Equity>).

### **6 POST-ISSUANCE INFORMATION**

Post-issuance information in relation to the Notes will be made available on [www.ingmarkets.com](http://www.ingmarkets.com). There is no assurance that the Issuer will continue to provide such information for the life of the Notes.

## 7 OPERATIONAL INFORMATION

- (i) ISIN: XS1496346229
- (ii) Common Code: 149634622
- (iii) Other relevant code: Structuring ID: AE5908
- (iv) Any clearing system(s) other than Euroclear Bank SA/NV and Clearstream Banking, SA, Clearstream Banking AG, Eschborn, Euroclear Netherlands and the Depository Trust Company and the relevant identification number(s): Not Applicable
- (v) Delivery: Delivery against payment  
The Certificates will be centralised and cleared through Euroclear.
- (vi) Names and addresses of additional Paying Agent(s) (if any): Not Applicable
- (vii) Name and address of Calculation Agent (if other than the Issuer or Guarantor): Not Applicable
- (viii) Intended to be held in a manner which would allow Eurosystem eligibility: No  
Whilst the designation is set at “No”, should the Eurosystem eligibility criteria be amended in the future the Notes may then be deposited with one of the International Central Securities Depositories as Common Safekeeper. Note that this does not necessarily mean that the Notes will ever be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.

## 8 DISTRIBUTION

- (i) Method of distribution: Non-syndicated
- (ii) If non-syndicated, name of relevant Dealer: The Notes are not being underwritten by any Dealer(s).
- (iii) Total commission and concession: The Issuer (the “**Responsabile del Collocamento**”) has agreed to make the Notes available to the Authorised Offerors at a price of USD 100 per Note on the Settlement Date. This price represents a commission element of USD 4.00 per Note effectively placed, which is reflected in the Issue Price of the Notes (the “**Distribution Fee**”).
- (iv) U.S. Selling Restrictions: TEFRA D rules are applicable
- (v) ERISA: Not Applicable
- (vi) Additional selling restrictions: Not Applicable

## 9 GENERAL

- |        |  |   |
|--------|--|---|
| (i)    | Total amount of the offer; if the amount is not fixed, description of the arrangements and time for announcing the definitive amount to the public:  | 150,000 Units   |
| (ii)   | Conditions to which the offer is subject:  | Offers of the Notes are conditional on their issue. As between the Authorised Offerors and their customers, offers of the Notes are further subject to conditions as may be agreed between them and/or as specified in the arrangements in place between them.  |
| (iii)  | Description of the application process:  | A prospective Noteholder should contact the Authorised Offerors in the Public Offer Jurisdiction prior to the end of the Offer Period. A prospective Noteholder will subscribe for the Notes in accordance with the arrangements existing between such Authorised Offerors and its customers relating to the subscription of securities generally. Noteholders will not be required to enter into any contractual arrangements directly with the Issuer in connection with the subscription of the Notes. |
| (iv)   | Description of possibility to reduce subscriptions:  | Investors may not be allocated all of the Notes for which they apply. The offering may, at the discretion of the Issuer, be cancelled at any time prior to the Issue Date.  |
| (v)    | Manner for refunding excess amount paid by applicants:   | Not Applicable. The terms of the Public Offer do not provide for any refunds of excess amounts paid by applicants.  |
| (vi)   | Minimum and/or maximum amount of application:  | There are no pre-identified allotment criteria. The Authorised Offerors will adopt allotment criteria in accordance with customary market practices and applicable laws and regulations.  |
| (vii)  | Method and time limit for paying up the securities and for delivery of the Notes:  | Investors will be notified by the relevant Authorised Offeror of their allocations of Notes and the settlement arrangements in respect thereof. The Notes will be issued on the Issue Date against payment to the Issuer of the net subscription moneys.  |
| (viii) | Manner and date on which results of the offer are to be made public:   | Investors will be notified by the Issuer or any applicable financial intermediary of their allocations of Notes and the settlement procedures in respect thereof on or around the Issue Date.   |
| (ix)   | Procedure for exercise of any right of pre-emption, the negotiability of subscription rights and the treatment of subscription rights not exercised: | Not Applicable. The terms of the Public Offer do not provide for a procedure for the exercise of any right of pre-emption or negotiability of subscription rights.  |

- |  |  |
|--|--|
| (x) Categories of potential investors to which the Notes are offered and whether tranche(s) have been reserved for certain countries.        | Offers may be made by the Authorised Offerors in the Public Offer Jurisdiction to any person during the Offer Period. In other European Economic Area countries and in all jurisdictions (including the Public Offer Jurisdiction) outside of the Offer Period, offers will only be made by the Issuer pursuant to an exemption under the Prospectus Directive, as implemented in such countries. All offers of the Notes will be made in compliance with all applicable laws and regulations. |
| (xi) Process for notification to applicants of the amount allotted and the indication whether dealing may begin before notification is made: | Prospective Noteholders may not be allocated all of the Notes for which they apply during the Offer Period. Prospective Noteholders will be notified by the applicable Authorised Offeror in accordance with the arrangements in place between such Authorised Offeror and the prospective Noteholders. No dealings in the Notes on a regulated market for the purposes of the Markets in Financial Instruments Directive 2004/39/EC may take place prior to the Issue Date.                   |
| (xii) Amount of any expenses and taxes specifically charged to the subscriber or purchaser:  | Not Applicable. The terms of the Public Offer do not provide for any expenses and/or taxes to be charged to any subscriber and/or purchaser of the Notes.  |
| (xiii) Name(s) and address(es), to the extent known to the Issuer, of the placers in the various countries where the offer takes place:      | The Initial Authorised Offeror identified in paragraph 8 above and any additional Authorised Offerors who have or obtain the Issuer's consent to use the Prospectus in connection with the Public Offer and who are identified on the Issuer's website as an Authorised Offeror (together, the " <b>Authorised Offerors</b> ").  |

## SUMMARY RELATING TO NON-EXEMPT PD NOTES

Summaries are made up of disclosure requirements known as “Elements”. These Elements are numbered in Sections A to E (A.1 to E.7). This Summary contains all the Elements required to be included in a summary for the Notes and the Global Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in a summary because of the nature of the Notes and the Global Issuer, it is possible that no relevant information can be given regarding the Element. In this case, a short description of the Element should be included in the summary with the mention of “Not Applicable”.

### Section A – Introduction and warnings

Element		
A.1	Warning and introduction	This summary must be read as an introduction to this Base Prospectus. Any decision to invest in the Notes should be based on a consideration of the Base Prospectus as a whole, including any documents incorporated by reference. Where a claim relating to the information contained in this Base Prospectus is brought before a court, the plaintiff may, under the national legislation of Member States of the European Economic Area where the claim is brought, be required to bear the costs of translating the Base Prospectus before the legal proceedings are initiated. Civil liability attaches only to those persons who have tabled the summary, including any translation thereof, but only if the summary is misleading, inaccurate or inconsistent when read together with the other parts of this Base Prospectus or it does not provide, when read together with the other parts of this Base Prospectus, key information in order to aid investors when considering whether to invest in the Notes.
A.2	Consent by the Issuer to the use of the Base Prospectus for subsequent resale or final placement by financial intermediaries, during the offer period indicated, and the conditions attached to such consent.	<p><i>Consent:</i> Subject to the conditions set out below, the Issuer consents to the use of the Base Prospectus in connection with a Public Offer (as defined below) of Notes by the Issuer, Deutsche Bank S.p.A., Finanza &amp; Futuro Banca S.p.A. and any financial intermediary which is authorised to make such offers under the applicable legislation implementing Directive 2004/39/EC (the “<b>Markets in Financial Instruments Directive</b>”) and publishes on its website the following statement (with the information in square brackets duly completed with the relevant information):</p> <p><i>“We, [specify legal name of financial intermediary], refer to the offer of 150,000 Units Express Notes linked to INTC UW due to October 2021 (the “Notes”) described in the Final Terms dated 26 September 2016 (the “Final Terms”) published by ING Bank N.V. #### Section B – Issuer

Element	Title	
<b>B.1</b>	Legal and commercial name of the Issuer	ING Bank N.V. (the “ <b>Global Issuer</b> ” or the “ <b>Issuer</b> ”).
<b>B.2</b>	The domicile and legal form of the Issuer, the legislation under which the Issuer operates and its country of incorporation	The Global Issuer is a public limited company ( <i>naamloze vennootschap</i> ) incorporated under the laws of The Netherlands on 12 November 1927, with its corporate seat ( <i>statutaire zetel</i> ) in Amsterdam, The Netherlands.

<p><b>B.4b</b></p>	<p>A description of any known trends affecting the Issuer and the industries in which it operates</p>	<p>The results of operations of ING Bank N.V. (including ING Bank N.V., Sydney Branch) are affected by demographics and by a variety of market conditions, including economic cycles, banking industry cycles and fluctuations in stock markets, interest and foreign exchange rates, political developments and client behaviour changes.</p> <p>Macroeconomic developments in 2015</p> <p>Several interrelated themes stood out in 2015: the price of oil and other commodities, the resilience of the Chinese economy, and the timing and content of monetary policy measures in the US and the Eurozone. The oil price seemed to have reached a low early in the year and soon started to climb. But it resumed its slide in the second half of the year. This coincided with turmoil on Chinese stock markets and worldwide concerns about Chinese economic growth. These worries spread to other emerging markets. While several emerging markets did indeed see economic growth decelerate, a sharp growth slowdown in China did not materialise in 2015, thanks in part to government stimulus measures.</p> <p>Meanwhile, the US economy continued to grow at a modest pace in 2015, despite headwinds from a stronger dollar and reduced investment in the oil industry because of low oil prices. The labour market in particular did well, with unemployment falling to levels well below the long-term average. The question of when the US Federal Reserve would start raising rates was therefore a dominant theme for financial markets throughout the year. Expectations began to be tempered at mid-year when the slowdown in emerging markets sparked fears this would also take a toll on the US economy. The US economy remained strong enough however for the Federal Reserve to embark on the first rate hike in more than nine years at its December meeting.</p> <p>Eurozone developments</p> <p>In the Eurozone, 2015 saw a policy of further monetary expansion, helping to bring about a broadening of the recovery. Exports and low oil prices supported the Eurozone economy in the first half of the year, although the global slowdown started to weigh on exports towards the end of the year. The combination of low inflation and increasing employment boosted household purchasing power, fuelling consumer confidence and accelerating consumption growth.</p> <p>The Greek crisis has not materially influenced the Eurozone recovery. Within the Eurozone, Germany in particular was able to take advantage of the weaker euro by increasing its exports, offsetting deteriorating exports to emerging markets. Domestic demand in Germany developed favourably as well, helped by job creation and nominal wage growth. The French economy on the other hand appeared weaker, bogged down by falling house prices and rising unemployment. Italian domestic demand</p>
--------------------	---	---

finally began to recover in 2015 – albeit cautiously, while Spain was an outperformer on both gross domestic product (GDP) and jobs growth, thanks in part to earlier structural reforms. In the Netherlands, the revival of the housing market was the most important driver behind the pick-up in both consumption and fixed capital formation.

The weak and fragile nature of the recovery and falling inflation expectations prompted the European Central Bank (the “ECB”) to embark on quantitative easing early in 2015. This sent Eurozone bond yields to unprecedented lows in the first half of the year. German government bond yields with a duration up to nine years turned negative for a short time. Important money market rates such as three-month Euribor and six-month Euribor sank below zero. As worries about a global slowdown mounted, the ECB announced in December that it will extend its quantitative easing until March 2017, and lowered the deposit rate a further 10 basis points to -0.3%.

Lower interest rates helped shore up Eurozone credit demand. Bank lending to households accelerated modestly in 2015, while lending to businesses finally turned positive after three years of deleveraging. Marked differences between countries remain, with credit growth generally more positive in northern European countries, while still negative in southern ones.

#### Low interest rate environment

The current situation with persistent low interest rates may put banks’ net interest income under pressure. On mortgages for instance, ING Bank N.V. (including ING Bank N.V., Sydney Branch) could be confronted with higher than expected prepayment rates as the difference between rates on the existing mortgage portfolio and the prevailing market rate causes customers to refinance. On savings, the net interest income may decrease as possibilities for further reduction of client rates on savings deposits are limited. ING Bank N.V. (including ING Bank N.V., Sydney Branch) actively manages its interest rate risk exposure and successfully maintained the net interest margin on its core lending franchise in 2015. To address the challenge of interest income erosion, containing costs remains an important goal. ING Bank N.V. (including ING Bank N.V., Sydney Branch) is also putting more emphasis on generating fee-based income and is reassessing its product characteristics.

#### Progress on regulatory initiatives that are most relevant to ING Bank N.V. (including ING Bank N.V., Sydney Branch)

November 2014 marked the start of the Single Supervisory Mechanism (“SSM”), with a central role for the ECB in the prudential supervision of Eurozone banks. This was a decisive moment in the creation of the European Banking Union.

ING Bank N.V. (including ING Bank N.V., Sydney Branch) has always been a strong supporter of the SSM. As a predominantly European cross-border universal bank, ING Bank N.V. (including ING Bank N.V., Sydney Branch) has a clear interest in the proper functioning of European financial markets and in a harmonised approach to European supervision. ING Bank N.V. (including ING Bank N.V., Sydney Branch) believes that it will contribute to a more efficient use of financial funds across Europe and as such should help to foster growth prospects of the European economy.

After the first full year of operating under the new supervisory framework, banks' experiences are generally positive. The SSM aims to create the institutional conditions for overcoming fragmentation in supervisory practices. It is important that common methodologies and a shared culture are created within the SSM. That takes time. Some banks may experience challenges in the short term as they come to terms with the SSM supervisory approach. ING Bank N.V. (including ING Bank N.V., Sydney Branch) expects that the SSM will increase its transparency as the system gets embedded.

As well as the SSM, 2015 saw preparations for the Single Resolution Mechanism ("SRM"). The SRM came into force on 1 January 2016. This aims to ensure an orderly resolution process for failing banks.

With SSM and SRM, two of the three pillars of Banking Union have been established. Mutualisation of deposit guarantee schemes, the last remaining pillar, is progressing at a much slower pace. Lack of a common European deposit guarantee scheme leaves the Eurozone potentially vulnerable to bank-sovereign interdependency, despite the existence of the SSM. For national sovereigns remain, explicitly or implicitly, a liquidity provider of last resort for the deposit insurance scheme. When sovereigns get into trouble, deposit holders will worry that the national deposit guarantee scheme will be unable to meet its commitments should domestic banks fail. Greece's experience in 2015 made this clear. Capital controls had to be imposed to contain a bank run, and a euro deposited at a Greek bank was no longer de facto equal to a euro deposited at a bank in another member state.

#### Payment Services Directive (PSD II)

The second EU Directive on Payment Services ("PSD II") was adopted in October 2015. This aims to create an EU-wide single market for payments with a modern and comprehensive set of rules. The goal is to make cross-border payments as easy, efficient and secure as domestic payments within a member state. The PSD II also seeks to improve competition by opening up payment markets to new entrants, thus fostering greater efficiency and cost reduction. While implementation in national law could take several years, ING Bank N.V. (including ING

Bank N.V., Sydney Branch) sees the PSD II as an opportunity to develop new ways of serving its customers.

#### Regulatory uncertainty

The large number of new regulatory initiatives and consultations concerning banks' capitalisation continued to be a source of uncertainty in 2015. Examples are the ongoing discussions on bail-in-able instruments (MREL/ TLAC), but also discussions in the Basel Committee about the risk weighting methodology and the interest rate risk in the banking book. The main concern of ING Bank N.V. (including ING Bank N.V., Sydney Branch) is that there is insufficient overview of the combined impact of all initiatives. Moreover, it is unclear what regulatory end-state policymakers are aiming for. This regulatory uncertainty complicates multi-year strategic planning and pushes banks towards confining themselves to no-regret decisions. Also considering the competitive pressures and fast market developments outlined below, ING Bank N.V. (including ING Bank N.V., Sydney Branch) believes this piecemeal approach to regulation is not in the best interest of banks and their stakeholders.

In addition to more traditional financial-sector regulation, ING Bank N.V. (including ING Bank N.V., Sydney Branch) noticed increasing regulatory interest in environmental and human rights impacts associated with its business activities. The Dutch Government initiative to come to a Banking Sector Agreement on international responsible business conduct, building on the OECD Guidelines for Multinational Enterprises. There is a call on the part of the public for increased transparency and continuous debate on the matter in the EU Parliament. Regulators are also looking at the potential link between sustainability and financial risk. An example is the Financial Stability Board looking into potential financial risks of climate change regulation.

#### Competitive landscape

Technology is removing a number of the barriers to entry that once insulated the business of ING Bank N.V. (including ING Bank N.V., Sydney Branch). ING Bank N.V. (including ING Bank N.V., Sydney Branch) faces competition from many different directions, with relatively new players providing more segmented offers to its customers and clients. Technology giants, payment specialists, retailers, telecommunication companies, crowd-funding initiatives and aggregators are all encroaching on traditional banking services. The clients of ING Bank N.V. (including ING Bank N.V., Sydney Branch), in turn, are willing to consider these offers.

The banking industry is highly regulated. Banks strive to act in the interests of their customers. Safe banking requires specific knowledge of

financial services and in-depth knowledge of customers as well as rigorous risk-management systems. As competition from outside the banking sector continues to increase, ING Bank N.V. (including ING Bank N.V., Sydney Branch) has to become faster, more agile and more innovative. ING Bank N.V. (including ING Bank N.V., Sydney Branch) believes that its long track record as a financial institution and a strong brand give it a strong platform from which to face existing and future challenges and become a better company for all its stakeholders. ING Bank N.V. (including ING Bank N.V., Sydney Branch) is a leader in digital banking, and it has scale combined with local market expertise. It is investing in building profitable, mutually beneficial relationships with its customers, based on the quality of its service and a differentiating customer experience. An example is the strategic partnership of ING Bank N.V. (including ING Bank N.V., Sydney Branch) with Kabbage. Together, they have launched a pilot project in Spain, offering small and medium-sized enterprises (SMEs) loans up to EUR 100,000. Kabbage's automated loan application and approval process is both accelerated and simple for customers. It makes use of full credit scoring and real-time risk monitoring and allows SMEs with an existing business account to get a loan within ten minutes, based on real-time business data.

#### Fluctuations in equity markets

The operations of ING Bank N.V. (including ING Bank N.V., Sydney Branch) are exposed to fluctuations in equity markets. ING Bank N.V. (including ING Bank N.V., Sydney Branch) maintains an internationally diversified and mainly client-related trading portfolio. Accordingly, market downturns are likely to lead to declines in securities trading and brokerage activities which it executes for customers and, therefore, to a decline in related commissions and trading results. In addition to this, ING Bank N.V. (including ING Bank N.V., Sydney Branch) also maintains equity investments in its own non-trading books. Fluctuations in equity markets may affect the value of these investments.

#### Fluctuations in interest rates

The operations of ING Bank N.V. (including ING Bank N.V., Sydney Branch) are exposed to fluctuations in interest rates. Mismatches in the interest repricing and maturity profile of assets and liabilities in the balance sheet of ING Bank N.V. (including ING Bank N.V., Sydney Branch) can affect the future interest earnings and economic value of the underlying banking operations of ING Bank N.V. (including ING Bank N.V., Sydney Branch). In addition, changing interest rates may impact the (assumed) behaviour of customers, impacting the interest rate exposure, interest hedge positions and future interest earnings, the solvency and economic value of the underlying banking operations of ING Bank N.V. (including ING Bank N.V., Sydney Branch). In the current low (and potentially negative) interest rate environment in the Eurozone, the stability of future interest earnings and margin also depends on the ability

Element	Title																									
		<p>to actively manage pricing of customer assets and liabilities. Especially, the pricing of customer savings portfolios in relation to repricing customer assets and other investments in the balance sheet is a key factor in the management of the interest earnings of ING Bank N.V. (including ING Bank N.V., Sydney Branch).</p> <p>Fluctuations in exchange rates</p> <p>ING Bank N.V. (including ING Bank N.V., Sydney Branch) is exposed to fluctuations in exchange rates. The management by ING Bank N.V. (including ING Bank N.V., Sydney Branch) of exchange rate sensitivity affects the results of its operations through the trading activities for its own account and because it prepares and publishes its consolidated financial statements in euros. Because a substantial portion of the income and expenses of ING Bank N.V. (including ING Bank N.V., Sydney Branch) is denominated in currencies other than euros, fluctuations in the exchange rates used to translate foreign currencies into euros will impact its reported results of operations and cash flows from year to year. This exposure is mitigated by the fact that realised results in non-euro currencies are translated into euro by monthly hedging.</p>

## Section D – Risks

Element	Title	
<b>D.2</b>	Key information on key risks that are specific to the Issuer or its industry	<p>Because the Global Issuer is part of a financial services company conducting business on a global basis, the revenues and earnings of the Global Issuer are affected by the volatility and strength of the economic, business, liquidity, funding and capital markets environments specific to the geographic regions in which it conducts business. The ongoing turbulence and volatility of such factors have adversely affected, and may continue to adversely affect, the profitability, solvency and liquidity of the business of the Global Issuer. The Global Issuer has identified a number of specific factors which could adversely affect its business and ability to make payments due under the Notes. These factors include:</p> <ul style="list-style-type: none"> <li>• adverse capital and credit market conditions</li> <li>• the default of a major market participant</li> <li>• changes in financial services laws and/or regulations</li> <li>• continued risk of resurgence of turbulence and ongoing volatility in the financial markets and the economy generally</li> <li>• inability to increase or maintain market share</li> <li>• inability of counterparties to meet their financial obligations</li> <li>• market conditions and increased risk of loan impairments</li> <li>• interest rate volatility and other interest rate changes</li> <li>• failures of banks falling under the scope of state compensation schemes</li> <li>• negative effects of inflation and deflation</li> <li>• inability to manage risks successfully through derivatives</li> <li>• inability to retain key personnel</li> <li>• inability to protect intellectual property and possibility of being subject to infringement claims</li> <li>• deficiencies in assumptions used to model client behaviour for market risk calculations</li> <li>• liabilities incurred in respect of defined benefit retirement plans</li> <li>• inadequacy of risk management policies and guidelines</li> <li>• regulatory risk</li> <li>• claims from customers who feel misled or treated unfairly</li> <li>• ratings downgrades or potential downgrades</li> <li>• operational risks such as systems disruptions or failures, breaches of security, cyber attacks, human error, changes in operational practices or inadequate controls</li> <li>• adverse publicity, claims and allegations, litigation and regulatory investigation and sanctions</li> </ul>
<b>D.3</b>	Key information on the key risks that are specific to the Notes	<p>The following key risks may arise in relation to the Notes: (a) the value of the Notes and any interest or principal repayment in relation to them may be affected by, but may not necessarily correlate to, movements and fluctuations in market interest rates and the price of a share or component in an underlying basket of shares; (b) the Global Issuer may</p>

		enter into activities that present conflicts of interest and adversely affect the value of the Notes; (c) the timing of changes in share prices may impact the yield on the Notes and (d) the Global Issuer may have the option to redeem the Notes early, which may affect their value in the secondary market.
		In addition, the following key risks may arise which may adversely affect the interest amount and/or redemption amount payable or deliverable in relation to the Notes (as applicable): the Notes are not principal protected. Furthermore, the terms of the Notes provide that: (a) the interest amount and the redemption amount will be determined by reference to specified preconditions and (b) the interest amount and the redemption amount are linked to the performance of a share.
<b>D.6</b>	Risk warning that investors may lose value of entire investment or part of it	<b>The capital invested in the Notes is at risk. Consequently, the amount a prospective investor may receive on redemption of its Notes may be less than the amount invested by it and may be zero.</b> Investors may lose up to the entire value of their investment if (a) the investor sells their Notes prior to the scheduled redemption in the secondary market at an amount that is less than the initial purchase price; (b) the Global Issuer is subject to insolvency or bankruptcy proceedings or some other event which negatively affects the Global Issuer's ability to repay amounts due under the Notes; (c) the Notes are redeemed early for reasons beyond the control of the Global Issuer (such as a change of applicable law or market event in relation to the underlying asset(s)) and the amount paid or delivered is less than the initial purchase price; and/or (d) the Notes are subject to certain adjustments or alternative valuations following certain disruptive market events that result in the amount to be paid or delivered being reduced to an amount or value that is less than the initial purchase price; and/or (e) the payout conditions do not provide for full repayment of the initial purchase price upon redemption or specified early redemption if the underlying asset(s) perform(s) in such a manner that the amount due under the Notes is less than the initial purchase price.
